Philosophy of the City has emerged as an international movement. To facilitate global discussions, this conference series aims to establish new channels for dialogue. Presentations can be in any area of philosophy of the city. Interdisciplinary approaches and neighboring disciplines are welcome. Each conference will feature sessions dedicated to addressing the challenges for ecology, technology, and democracy in current and future cities. Send abstracts to Shane Epting at potc2015@gmail.com by May 31, 2015. Include the city of your choice in the subject line. For submissions in Spanish for Mexico City, send emails to Luis Diaz at the email address above. For more information and a list of suggested topics, see philosophyofthecity.org or find us on Facebook or Twitter.

Conference organizing committee: Brian Elliott, Gray Kochhar-Lindgren, Luis Ruben Diaz, and Shane Epting. Poster design: Will Watts
